What Is City Council Thinking?

Have you watched as this community has gone from being a wonderful place to raise kids to a haven for grow-ops, crackhouses, prostitutes and crystal-meth labs? Well, now City Hall is rolling out the red carpet for casinos...

And they'll get their way unless concerned parents like you and me decide to stand up and tell our City Council exactly what we think.

I need your help. I need you to join me this Monday at 6 p.m. at Matsqui Centennial Auditorium (beside City Hall). City Council is holding a public hearing about the slot-machine issue, and we need to make our voices heard. The pro-gambling groups are spending big money to try to ram this issue through. We need to stop them, for the kids and for the community.

Yours for the family, *Trish Kolsto*
